

## **Dialogue with Director and Day with Director- Innovative Initiatives**

Director Dr. Nitin Nayak has started 2 new initiatives – Dialogue with Director and Day with Director. In Dialogue with Director, director talks with one student from each class to know the students better and to understand their problems and overall feedback from the students about the functioning of the institute.

With ‘Day with Director’ initiative the director goes to the house of those students who have topped in the semester exams. He meets the parents and bring the student to the institute in his own car. The initiative is meant to motivate the students for doing better in studies and to honor the toppers of the examination.
